Built to lead the national program — across all five tiers

We map directly to Paramount’s five lead-time tiers. Steelcase carries the core; partners cover rental and specialty — and **Tangram owns every transaction and a single invoice** across all of it.

One program, one standard, one accountable partner — positioned to lead nationally, not a single region.

A contract becomes a managed program

A single client-facing workspace for Paramount's facilities and procurement teams — every site, one screen.

Standards Catalog

Approved product & configurations per Paramount standard — every site orders right.

Multi-Site Ordering & Budget Tracking

POs, spend & status by location/region and program-to-date.

Approvals & Workflow

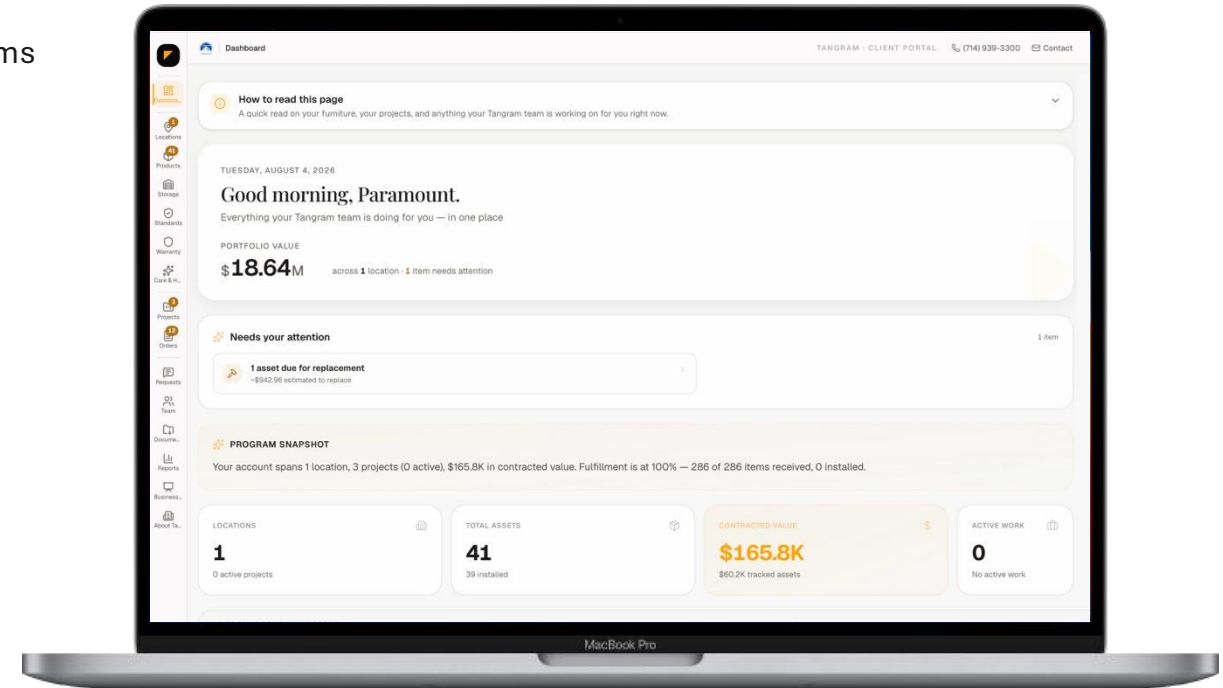

Routing and sign-off matched to Paramount procurement rules.

Asset Registry & Service Tickets

Every item tracked; reconfiguration, warranty & refurbishment logged and resolved.

Reorders & Reporting

One-click reorders against standards, plus rollup program reporting.

Steelcase Exchange
standards & catalog

Tangram Portal
the program layer

“Exchange manages the catalog. Portal manages the program.”

Everything after the install — and the clients who trust us with it

A standards program lives for years, not weeks. In-house and partner services keep Paramount’s environments current, consistent, and cost-efficient across the full life of the MSA.

01

AV & Technology

Design and integration of technology solutions across every environment.

02

Prefab Construction

Demountable walls & interior architecture — fast, low-disruption.

03

Custom Furniture

Bespoke pieces where standard product can't tell the story.

04

Asset Management & Decommissioning

Inventory, warehousing, MAC & attic-stock control across sites.

05

Refurbishment & Reupholstery

Extend asset life, cut spend, support sustainability goals.

CLIENTS WHO TRUST US

Paramount’s story is one of the most iconic in the world.
We’d be honored to build the workplaces behind its next chapter — **one crew, every location, camera-ready.**
